Features

Allegro Nero, a type of black paper renowned for its distinct characteristics and visually pleasing appearance, is specifically crafted to offer an elegant and refined presentation. It adds a luxurious touch to the packaging of various upscale products, including but not limited to high-end merchandise, electronic devices, beauty products, and exquisite jewelry.

With its diverse array of materials, Allegro Nero can be easily tailored and molded to produce a variety of packaging designs, ranging from boxes and bags to wraps and sleeves.

Utilizing specific digital printing machinery, offset printing techniques, hot foil stamping, or embossing, Allegro Nero allows seamless integration of brand elements, pertinent product details, and decorative motifs.

When selecting Allegro Nero for your paper-based packaging needs, it is important to carefully consider the specific prerequisites of the packaged product and the desired processing methods. This meticulous approach ensures that Allegro Nero effectively heightens the appeal of the product and harmonizes with the overarching identity and messaging of the brand.
