

## ITAGAMI SOFTBOARD

Code	Color	Size (mm)	Weight (GSM)
SOFTBOARD	White	600 X 800	285
SOFTBOARD	White	700 x 800	300
SOFTBOARD	White	600 X 800	570

### Features

Itagami Softboard comes with 3 grades of substances; 285, 300 and 570 gsm.

Itagami Softboard composed of multiple layers of thick, absorbent paper which are compressed and bonded together to create a sturdy material.

With its moisture and heat absorption characteristics, it provides effective protection for the underlying surfaces, such as a table or a counter, which also performs well to be used as air fresheners.

With the thickness itself, Itagami Softboard gives very outstanding performance to be used in letterpress or embossed/debossed products.

### Ideal For

Match for almost all occasions, Cards, Coaster, Folder, Cover, Tags, Invitations, Air Fresheners and many more.
